NEVER ENOUGH TIME?

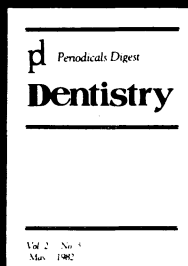

Join the professionals who use the P.D. system.

Periodicals Digest in Dentistry is an easy-to-scan publication that contains the reproduced tables of contents from over 60 dental and dental related journals. Issued ten times a year, we assist researchers, faculty, students and librarians in keeping up with the current literature by offering a simple way to cover hundreds of articles in a short period of time.

Periodicals Digest in Dentistry takes it one step further . . . by providing our Article Reproduction Service that helps users obtain any of the articles appearing in the Digest.

Save time and money — write today for more details about Periodicals Digest in Dentistry.
