
The Effects of Hypocalcemia/Hypophosphatemia on Porcine Bone and Dental Hard Tissues in an Inherited Form of Type I Pseudo-Vitamin D Deficiency Rickets H. Limeback, C. Schlumbohm, A. Sen, and G. Nikiforuk	346
A Statistical Approach to the Ecology of <i>Porphyromonas gingivalis</i> B.G. Loos, A.J. Van Winkelhoff, R.G. Dunford, R.J. Genco, J. De Graaff, D.P. Dickinson, and D.W. Dyer	353
Neutrophil Elastase and its Inhibitors in Human Gingival Crevicular Fluid during Experimental Gingivitis C. Giannopoulou, E. Andersen, C. Demeurisse, and G. Cimasoni	359
Light and Transmission Electron Microscopy of the Intact Interfaces Between Non-submerged Titanium-coated Epoxy Resin Implants and Bone or Gingiva M.A. Listgarten, D. Buser, S.G. Steinemann, K. Donath, N.P. Lang, and H.P. Weber	364
Masticatory Muscle Activity in Different Jaw Relations During Submaximal Clenching Efforts A. Visser, R.S. McCarroll, and M. Naeije	372
Comminution of Food by Complete-denture Wearers A.P. Slagter, L.W. Olthoff, W.H.A. Steen, and F. Bosman	380
Influence of Anticoagulation on Blood Loss Following Dental Extractions D. DeClerck, F. Vinckier, and J. Vermylen	387
Immunohistochemical Localization of Types I, V, and VI Collagen in Human Permanent Teeth and Periodontal Ligament P.-L. Lukinmaa and J. Waltimo	391
A Longitudinal Radiographic Study of the Periosteal Migration along the Growing Rabbit Mandible T.H.M. Frankenhuis-Van Den Heuvel, J.C. Maltha, A.M. Kuijpers-Jagtman, and M.A. Van't Hof	398
Fitting Genetic Models to Carabelli Trait Data in South Australian Twins G.C. Townsend and N.G. Martin	403
The Influence of Polymerization Shrinkage of Resin Cements on Bonding to Metal C.W.G.J.M. Verzijden, A.J. Feilzer, N.H.J. Creugers, and C.L. Davidson	410
Daily Dose Calculations from Measurements of Intra-oral Mercury Vapor S. Olsson and M. Bergman	414
Guest Editorial: Halitosis—The Need for Further Research and Education M. Rosenberg	424
